

Financial Consultant

You've got your Diploma and SPS. What next?

You're well on your way to becoming a Chartered Financial Planner but finding a position which enables you to develop into the finished article isn't easy.

Butler Toll is a growing business, so building the right team is crucial to driving us forward.

But you won't be thrown in at the deep end with an arbitrary sales target and no clients to talk to!

You will be working closely with our existing Chartered Financial Planning and Professional Services teams.

You will be working face-to-face with clients from day one and given a client bank to manage and grow.

We will help you develop your skills in terms of the advice process, networking and expanding your portfolio of clients as you are given the room to grow into the role.

As part of your personal development we will support you as you work towards Chartered status and beyond.

We think our approach is rather different and offers a great career opportunity.

If you think you may be a great fit for Butler Toll email your CV to our Managing Director, Richard Butler: rbutler@butlertoll.co.uk
